BOR 84-4

This public document was promulgated at an annual cost of $2,951.66 or $7.38 per copy to provide a compilation of significant information about the State University System of Florida.

FOREWORD

FACT BOOK 1982-83 is designed to provide timely, accurate and comparative data about the State University System of Florida. It is intended for use by individuals interested in higher education in Florida. Our primary goal is to present summary information in a form which is easy to understand. Information is provided in the form of tabular displays, charts, graphs and a glossary of terms and abbreviations.

Data in the FACT BOOK were gathered from a variety of sources. The primary source documents were the State University System Data Tapes, the Higher Education General Information Survey Reports (HEGIS), annual financial statements, operating budgets, and reports required by the United States Office for Civil Rights.

Although the data presented in the FACT BOOK have been carefully prepared and thoroughly checked by the Board of Regents Staff and the Data Administrators at each University, there is still the possibility for error. Therefore, if you intend to excerpt portions of this document for publication elsewhere or use its data in major policy development or analysis, we recommend you contact our staff to ensure that you receive any post-publication changes. In order to help this communication, we have placed the initials of the Board of Regents Office responsible for the data presented in the lower left corner of each table or figure. The initials are expanded in the glossary. In addition, a directory of Board of Regents Staff by responsibility has been included.

STATE UNIVERSITY SYSTEM OF FLORIDA

The State University System (SUS) was established formally in 1905 when the legislature passed the Buckman Act which consolidated the various post high school institutions into three under a Board of Control. After consolidation, the System consisted of the University of Florida, Florida A&M University, and Florida State University. As the desire for an education continued to grow throughout the state and students demanded advanced instruction within commuting distance of their home, the urban areas started to compete for degree-granting institutions. By 1964, University of South Florida in Tampa was operating, Florida Atlantic University in Boca Raton was on the drawing board, and two more institutions, one in Pensacola and one in Orlando, were authorized. In order to enhance coordination of this growing system, the Florida Legislature established the Board of Regents as the single governing board of the state supported universities.

As originally established in 1965, the Board of Regents consisted of nine members; however, today, that number has increased to thirteen. The membership now includes eleven representatives from various geographical areas of the state, who are appointed by the Governor for six-year terms, a student Regent appointed for a one-year term, and the Commissioner of Education. Chief administrative officer of the Board of Regents is the Chancellor. The Board and Chancellor are supported by an office which is structured according to major functional areas: Office of the Chancellor which includes Office of Budgets, Equal Opportunity Programs, Internal Management Auditing, General Counsel, and Corporate Secretary; Academic Programs, which includes program review and academic planning; and Administration and Support which includes information resource management, business and financial operations, construction administration, and personnel programs and labor relations.

The Board of Regents is involved primarily in selection of university presidents and policy making; therefore, its responsibilities include adoption of systemwide rules and policies, planning for the future needs of the SUS, evaluation and coordination of program development, to name a few. Responsibility for the operation of each institution is delegated to the universities. In the state organizational structure, the Board of Regents is placed under the State Board of Education as "the Division of Universities." Thus, the State Board of Education is charged with the responsibility of approving or disapproving all rules and regulations adopted by the Regents and adopting and transmitting to the Governor the SUS Legislative Budget Request.

Today the University System consists of nine universities which are placed throughout the state: in Gainesville, the University of Florida; in Tallahassee, Florida A&M University and Florida State University; in Tampa, the University of South Florida; in Boca Raton, Florida Atlantic University; in Pensacola, the University of West Florida; in Orlando, the University of Central Florida; in Jacksonville, the University of North Florida; in Miami, Florida International University. There are twelve off-campus centers located throughout the state. Also, the University of Florida Institute of Food and Agricultural Science (IFAS) administers seven agricultural research and education centers in addition to 69 county cooperative extension programs. The University of Florida and the University of South Florida have medical schools. UF provides internship and residency programs on campus at Shands Teaching Hospital. USF is expanding their program to include a Cancer Center and Shrine Hospital.

1982-83 was marked by many significant events. Both Florida Atlantic University and the University of Florida initiated national searches for new presidents. FAU concluded their search with the selection of Dr. Helen Popovich. UF concluded their search with the selection of Mr. Marshal M. Criser. The SUS was involved in one of the highest funded construction programs in the nation and a comprehensive systemwide facilities master plan was initiated. Academic program reviews for Student Services, Architecture and related programs, and Allied Health were completed. The development of a data base for student financial aid was initiated. BOR Rules were amended to allow each university to establish its own athletic, health and activity and service fees. The SUS conducted a survey of Florida public high school seniors to assist in determining whether student's academic preparation and postsecondary education and career plans were consonant with raised SUS admissions criteria and financial aid availability. The Board of Regents gave approval to UWF and Okaloosa-Walton Junior College for a joint education center at Fort Walton Beach to begin in Fall 1983.

CONCEPTS FOR REPORTING FLORIDA'S PROGRESS
TOWARD EXCELLENCE IN EDUCATION IN UNIVERSITIES

In January 1981, the State Board of Education adopted the following resolution:

> On a statewide average, educational achievements in the State of Florida will equal that of the upper quartile of states within five years, as indicated by commonly accepted criteria of attainment.

There are many dimensions to the quality of service rendered by our universities. The Board of Regents formally adopted indicators to be used as criteria for determining the State University System's progress.

Upper Quartile Measures for Comparisons With Other States	Foundational Measures for Determining Progress Within The State University System
Appropriations per headcount student.	Education value added as measured by CLAST scores.
Average full-time faculty salaries by rank.	Endowed chairs, number.
Contracts and grants per faculty member.	Graduate Record Examination scores.
Library expenditures per FTE student.	Graduates with academic scholarships and fellowships for further study, number.
National Merit Scholars, number.	National rank of program, school or college, where existing.
Number of full-time scientists and engineers employed at public universities.	Percent of full-time faculty by highest earned degree.
Research library rank.	Progress toward student goals of the State Plan for Equal Access and Equal Opportunity.
	Specialized or programmatic accreditation.
	State financial aid per student.
	Strengthening undergraduate education.
	Student/faculty ratios.
	Student follow-up studies, findings (placement and performance).

The State Board of Education concurred with these measures and added the following additional indicators.

Admissions tests scores of students enrolling for the first time.	Average full-time faculty salaries.
Operating expenditures per FTE student.	Licensure examination results of graduates.
Percent of degree seeking students who are awarded degrees.	Percent of freshmen students who ranked in the top tenth of their high school graduation class.
	Progress toward the faculty and administrator goals of the State Plan for Equal Access and Equal Opportunity.

NOTE: During the past year the Board of Regents (BOR) staff gathered 1981-82 SUS and national data concerning the above measures for incorporation into the first annual report to the State Board of Education as to progress toward increasing quality. This first report will be used as a baseline to determine subsequent progress toward the upper quartile and quality improvement goals. During the next year the BOR staff will gather comparison data from the 1982-83 academic year.

[2]The University of Florida and Florida State University are responsible for providing programs and services on their respective campuses and in their local communities. Further, they are responsible for providing, on a statewide basis, such programs and services which cannot be provided by the other State University System institutions. The activities of the cooperative extension service are the responsibility of the Institute of Food and Agricultural Sciences of the University of Florida without regard to the geographical area in which those activities occur.

[3]By agreement between the Presidents of USF and FAU and the Superintendent of the Hendry County Public School System.

[1] Includes medical professionals.

[2] These students do not pay tuition, are admitted on a space-available basis, and generate no funding for the State University System institutions.

[3] Although SUS Faculty and Staff Fee Waivers were in effect before 1976-77, data on the number of them is not available in the earlier years.

[4] Non-SUS State Employee Fee Waivers went into effect Fall, 1979.

[5] Senior Citizen Fee Waivers went into effect Fall, 1980.

NOTE: Figures have been rounded to the nearest whole number.

SOURCE: Data for 1973-74 through 1976-77 was obtained from Florida's 10-year Summary of Appropriation Data, Department of Administration, Division of Budget, Volume 2, September, 1978. Data for 1977-78 through 1982-83 was obtained from the Student Data Course File Enrollment Reports.
